MAKING MORE POSSIBLE

LIFECARE | KIDCARE | STAFFING

Objectives:

Participants will be able to:

From birth to death, crises occur which challenge medicine's ability to help. But who determines when and if medicine can help? What rules, laws, process or principles guide us? We will explore the answer to these questions through the following objectives.

1. Clarify the role of beliefs and values in ethics.
2. Emphasize the importance of determining goals of care.
3. Describe the Texas Advance Directive Act and its application.
4. Examine case studies addressing disabilities, aging, informed consent, irreversible condition and futility.

You may also register online with a credit card at www.tagstarrant.org
